HYDRO ENGINEERING

DESCRIPTION DEPLOYMENT SYSTEMS SPOOL CONFIGURATIONS

There is no need to haul around long lengths of hose at a time. With interchangeable spools you can layout only the hose you want when you need it. This labor saver only requires one guy to deploy and reel up.

- Spools with 660' capacity
- 2 Speed Hydraulic Drive
- Interchangeable Spools
- Hose Sizes: 6", 8", 10", 12"

HR3S
 • Spooler Unit with Hydraulic Drive, Anti Lash Brake, and Deployment Rack for 48" Spools

HR3S-1
 • Spooler Unit with Hydraulic Drive, Anti Last Brake, and Deployment Rack with Live Roller, and Light Kit for 51" Spools

HR3RD-48
 • 48" Open Drum Spooler
 • Capacity: 660' - 6", 8", 10" Hose

HR3RD-51
 • 51" Open Drum Spooler
 • Capacity: 660' - 12" Hose

HR3RD-6R
 • 51" Open Drum Spooler
 • Capacity: 1320' - 6" Hose

HR3RD-51X3X12
 • 51" Divided Drum Spooler
 • Capacity: 660' -12" Hose (220' Per Slot)
