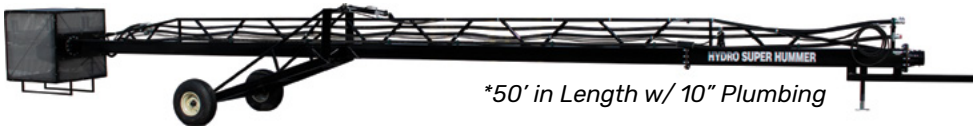
HYDRO SUPER HUMMER



*50' in Length w/ 10" Plumbing

HYDRO SUPER HUMMER CONFIGURATIONS

Overall Length & Plumbing Size

The length and the plumbing size of the Hydro Super Hummer is important to any operation to get into deeper holding pits and pump more gallons. Hydro will work with you to find the right combination to make sure your Super Hummer works for your operation.

Hydraulic Running Gear

The Super Hummer's come standard with a hydraulic running gear. This feature makes getting the Hummer over the holding pit's berm and keeping it level as you position it over your lagoon.

Header Pump Options

The heart of the Super Hummer is the header pump that's attached. Hydro offers a wide variety of header pumps to match the gallons per minute you're looking to pump & your price range. The newest available option to the header pump lineup is the Nuhn triple port pit pump.

Nuhn Header Pump

The Nuhn triple port header pump is one of the most efficient pit pumps on the market today and it's not outfitted onto the Hydro Super Hummer!

This pump has also been tried and tested on the Hydro 65' boom lead pump truck.

Discharge Fittings

Do you have a specific discharge fitting that you want installed on your new Super Hummer?

Hydro is able to fit any type of discharge you're looking for to this unit making it customizable to your operation.

Hydro's Pit Pal unit can also be attached in place of the Nuhn triple port pump.

Left: Duel HP61 Hydro Pit Pals have been attached to match a customers unique specifications.

** Not all options and variations of the Hydro Super Hummer are listed in this brochure. Contact Hydro Engineering for more information.*
